# Coursera Capstone Project - Opening a chinese restaurant

## Business Problem/ Introduction

Toronto is recognized as the most diverse city in the world. About 51% of the residents belong to the visible minority, out of which 12.5 are chinese, this makes it a good place to start a chinese restaurant.
To make it successful,  we need to find the best neighborhood with less competition and more demand of chinese food.

## Target audience

This project will help people find the best location to open a chinese restaurant,moreover it will also help those people to find a good place to eat chinese food.
